## ***PRODUCT DATA SHEET***

---

**Item Number** : MAT246  
**Item Name** : PIG® Universal Rolls – Light-Weight  
**Absorbs** : Oil, Water, Coolants and Solvents  
**Content / Packaging** : 2 Rolls / Bag  
**Color Product** : Grey

**Roll Dimension** : 38 cm x 91 m  
**Composition Mat** : 100% Polypropylene

**Absorbency per Product** : 76,6 L / Roll  
**Absorbency per Packaging** : 155,2 L / Bag

**Weight per Packaging** : 13,6 Kg  
**Packaging / Euro Pallet** : 12  
**Packaging / Block Pallet** : 12

### **Description**

An Absorbent Mat designed to cover areas prone to overspray and spills. Absorbs water-based liquids, petroleum products and solvents. Perforations make the mat more convenient to use by eliminating the need for scissors or a utility knife.

### **Application**

There are two main uses for PIG® Universal Mat: everyday use and emergency spill cleanup. The most common use of the mat is to make and keep floors cleaner and safer, free of any water-or oil-based fluids that may cause an accident. Absorbent mats are used daily in areas subject to overspray.

### **Features / Benefits**

- ☐ Absorb leaks and spills to keep floors dry and workers safe. Strong, durable PIG® Mat lasts longer so you use less Mat and spend less time replacing it.
- ☐ Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- ☐ 100% polypropylene (now made with 50% recycled content)
- ☐ Exclusive dimple pattern speeds wicking of liquid throughout Mat for faster, easier cleanup
- ☐ Highly absorbent, fine-fiber construction won't leave behind liquids or fiber residue
- ☐ Absorbs and retains oils, coolants, solvents and water
- ☐ Made with 50% recycled content
- ☐ Dark gray color hides grime, so Mat stays on the job longer
- ☐ Perforated Mat is easy to tear to size so you only use what you need
- ☐ Flame-resistant material won't burn immediately like cellulose mats; melts when exposed to high heat while on the job
- ☐ Can be wrung out and incinerated after use to reduce waste or for fuels blending
- ☐ Light-weight construction is economical for small tasks and cleanups
- ☐ Rolls are ideal for covering large areas and soaking up leaks and overspray
