PRODUCT DATA SHEET

Item Number : PIL203
Item Name : PIG® Skimmer Pillow - Large
Absorbs : Oils, petroleum-based liquids, repels water
Content / Packaging : 10 Pillows / Box
Color Product : White

Pillow Dimension : 41cm x 43cm x 5cm
Composition Skin : Spunbond Polypropylene
Composition Filler : Polypropylene

Absorbency per Product : 3.8 L / Pillow
Absorbency per Packaging : 38.0 L / Box

Weight per Packaging : 5.4 Kg
Packaging / Euro Pallet : 20
Packaging / Block Pallet : 24

Description

Absorbent pillow that repels water but absorbs oils and petrochemicals. Its large surface area allows for quick absorption of fluids.

Application

The main application for the PIG® SKIMMER Pillow is absorbing large quantities of oil off water once a spill has been contained with a PIG® SKIMMER Absorbent Boom. In an emergency spill situation, speed of absorption is critical, and the Pillow's large surface area speeds cleanup time.

Features / Benefits

- ☐ Repels water but absorbs oils / Allows for outdoor use or anywhere aqueous liquids need not be absorbed
- ☐ Floats even after absorption / Easy retrieval avoiding additional environmental damage
- ☐ Fast wicking / Effective cleanup of oils off water which keeps contaminants contained within the pillow
- ☐ High absorption / Used to speed up absorption on larger spills; absorption begins the instant you put them down until fully saturated
- ☐ White in colour / Allows easy visual observation of amount of fluids absorbed
