Halfmask and canisters can be used only if the toxic allow an oel according to safety procedure . APF for the total equipment is 50 .

CANISTERS AND HALF MASK CAN BE USED IN PLACES WHERE THE OXYGEN CONCENTRATION IS SAFELY UPPER 17 %.

Features & Benefits

Feature

Does not hinder the field of vision

Benefit

Work facilitated for user

Feature

Securely fastened by audible click - turn system

Benefit

Safe: The user checks the proper installation via the audible click on its safety system

Feature

Optimal exchange surface

Benefit

Optimal period of use

Feature

True P3 performance according to EN 143

Benefit

Safety and lasting protection

Feature

Low resistance, lower than that required by standard EN 141

Benefit

Easy ventilation

Feature

Easy storage Limitation period – 5 years after date of manufacture

Benefit

Durable product quality and efficiency

Feature

Protection ensured during delivery and storage

Benefit

Safe Easy storage

Feature

Effective and attractive packaging: Product delivered in a clear and effective packaging designed for a self-service environment, which provides the needed information to easily make the right protection choice. It includes pictograms to easily recognize the protection range as well as hazards identification and product advantages.

Benefit

Customers can easily recognize which personal protective equipment to choose, depending on their work environment and the risks they face. As a result, they become autonomous and can be sure they are making the right protection choice.
