

PRODUCT NUMBER: 1008671

Adjustable Barracuda Scaffolding Lanyard

Overview

Reference Number

1008671

Product Type

Fall Protection

Range

Shock Absorbing Lanyards

Brand

Miller by Sperian

Brand formerly known as

MILLER

Industry

• Industry • Building and Construction

Product Use

An adjustable 1.2m fall arrest rope lanyard with shock absorber, vertical scaffold clamp and screwgate karabiner.

Double gripping mechanism tightens the grip on the vertical tube as you pull down on it.

The ultimate fall protection solution for scaffolders

It is the only practical fall arrest system for vertical scaffolding tubes and significantly enhances the safety of workers erecting, dismantling and altering scaffolding.

Features & Benefits

Feature

Jaw system with clamp teeth. Stainless steel connecting device Compact and handy grip for use with one hand. Polypropylene grip Tear-off energy absorbing element Total Length 1.2m Lightweight Fit for use with scaffolding tubes from 48.3 to 50mm

Benefit

Safer Designed to grip onto vertical scaffolding tubes with a diameter of 48.3 to 50mm, the Barracuda™ is the only practical system that allows anchorage above waist height, thus significantly reducing the fall arrest forces from a fall and consequently the risk of injury. Easy-to-use The innovative anchorage clamp is easily fitted using one hand thus allowing the scaffolder to keep one hand free for carrying tools or for steadying themselves whilst working. Greater mobility The anchorage point above waist height rather than below the feet offers the scaffolder a greater working area and leads to greater productivity.

Technical Description

Weight

1,22 kg

Operating Temperature

-30°C to 50°C

Rope

Rope Raw Material

Polyamide 10.5mm

Rope Breaking Strength

>2200 daN

Connector
