

PRODUCT NUMBER: 706

Lapren 706

Lapren® 706 is a medium-weight natural latex protective glove which incorporates polychloroprene to improve chemical resistance. The special mixture of materials ensures high elasticity, plus good tensile strength and tear resistance. The palm surface ensures a firm grip even in wet working environments, while maintaining a high degree of sensitivity. With cotton flock lining, stretched cuff and anatomical design, this product meets all requirements of comfort and hygiene.

Honeywell

Overview

Reference Number

706

Product Type

Gloves

Range

Chemical Protection

Line

Liquidproof

Brand

KCL by Honeywell

Brand formerly known as

KCL

Industry

• Catering • Chemical Industries • Industrial Cleaning • Laboratory • Utilities

Product Use

• laboratory work • cleaning • use in the catering industry • manufacturing of small parts
• precision engineering and electronics industry • working in power stations

Features & Benefits

Feature

AQL < 0.65 glove surface free from silicone (lacquer indifference, test method automotive industry) polychloroprene part

Benefit

excellent sensitivity good grip when handling wet parts high flexibility at low temperatures high elasticity extremely comfortable

Technical Description

Description

Unsupported natural latex and chloroprene. Flock lined. Profiled palm surface. Stretched cuff.

Product Technology

Dipped

Glove/liner color

Green

Coating Type

Natural latex, chloroprene

Length

300-320

Thickness

0,6

Harmlessness

In conformity with European standards

Sizes

7,8,9,10

EN 388 - Mechanical Hazards Abrasion Resistance

Abrasion resistance	1
Cutting resistance (Coupe test)	0
Tear resistance	2
Puncture resistance	0
Cutting resistance (TDM test)	X

EN ISO 374-1 Resistance to

Resistance to permeation by chemicals	Type A - KLMPST
