PRODUCT DATA SHEET

Item Number	: MAT301
Item Name	: PIG® HAZ-MAT Pads – Heavy-Weight
Absorbs	: Oil, Water, Coolants, Solvents, Acids and bases
Content / Packaging	: 100 Pads / Bag
Color Product	: Pink
Pad Dimension	: 38 cm x 51 cm
Composition Mat	: 100% Polypropylene
Absorbency per Product	: 0,84 L / Pad
Absorbency per Packaging	: 83,6 L / Bag
Weight per Packaging	: 7,7 Kg
Packaging / Euro Pallet	: 20
Packaging / Block Pallet	: 30

Description

Absorbent mat designed to clean up of a broad range of chemicals. Absorbs acids, bases, oils, coolants, solvents and water.

Application

Main function is emergency spill response for acids, caustics, solvents and unknowns. The large surface area and fast wicking ability provide quick cleanup. The chemical-resistant polypropylene mat does not fall apart, even when saturated.

Features / Benefits

- ☐ Quickly absorb chemical spills. PIG® HAZ-MAT Pads are specially treated to absorb high concentrations of acids, bases or unknown liquids better than any other absorbent in the market.
- ☐ Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- ☐ Exclusive dimple pattern speeds wicking of liquid throughout Mat for faster, easier cleanup
- ☐ Highly absorbent, fine-fiber construction won't leave behind liquids or fiber residue
- ☐ Absorbs and retains most acids, bases and unknown liquids
- ☐ Specially treated to absorb high concentrations of corrosive liquids, such as 98% sulfuric acid and 30% sodium hydroxide, better than any other absorbent in the market
- ☐ Chemical-resistant Mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- ☐ Pink color is easily distinguishable to prevent improper use and pilfering of spill-response supplies
- ☐ Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups
- ☐ Perforated Mat is easy to tear to size so you only use what you need
- ☐ Pads are ideal for wipedowns and soaking up spills
- ☐ Flame-resistant material won't burn immediately like cellulose mats; melts when exposed to high heat while on the job
- ☐ Can be incinerated after use to reduce waste

NOTE: independent testing indicates that PIG® HAZ-MAT products are compatible with and absorbs most acids and bases. Due to variables and conditions beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To insure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with New Pig® HAZ-MAT products prior to purchase.
