

Ribbed surface, economy anti-fatigue matting

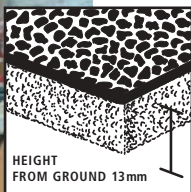

Tuff Spun is manufactured from high quality closed cell PVC foam with a ribbed slip resistant top. An economical, yet superior alternative that is ideal for industrial workstations, packaging areas and processing plants where employee fatigue is a concern. Suitable for dry applications. Also helps reduce noise underfoot and protect accidentally dropped items.

Available with yellow edges to long sides for work area safety demarcation.

Foam matting with pebbled, wear resistant top surface finish

Designed for durability & comfort underfoot, Tuff Spun Wear provides an anti-fatigue mat that is recommended for most medium duty retail and commercial applications. The mat has a textured wear surface that is slip resistant and the 13mm thickness provides extra cushion comfort underfoot.

Manufactured from dual density vinyl foam, providing a high wear resistant top surface.
